Retrofits and Overhauls

FACTORY REFURBISHMENT

REBUILT AND REVITALIZED

From minor accident repairs to complete body replacement and aerial remounts, look to Rosenbauer to add quality years to the life of your apparatus. With more than 130 years of combined service and repair experience, the experts at Rosenbauer have the skill to rebuild and revitalize firefighting vehicles that have been put to the test. Along with years of experience, Rosenbauer personnel are EVT and ASE certified. We specialize in major refurbishment as well as routine repairs. Contact Rosenbauer for the best support before, during and after the sale.

Capabilities

The experts at Rosenbauer have the experience and capabilities to remount any apparatus body on to any type of chassis. Whether updating your apparatus for safety or to comply with current NFPA standards to major refurbishments, Rosenbauer will provide the expertise to ensure a thorough process. Please contact a Rosenbauer representative for any of the following services:

- Accident Repairs
- Aerial Overhauls and Remounts
- Cab and Body Replacements
- Water Tank Replacements
- Chassis Replacements
- Aftermarket Repairs
- Preventative Maintenance
- Electrical Modifications
- Pump Overhauls and Third Party Testing
- Pumper/Tanker Conversions
