

Our Valued Customer,

Rocky Mountain Phoenix is again offering training opportunities to our customers.

This September we will be hosting our two day extrication-training seminar for Emergency Responders. The instructor group for this event will again be the group from Alberta Vehicle Extrication Association. This session will provide responders with an excellent learning and networking opportunity. The course will focus on tool technique, hand tools, and lifting, cribbing, and stabilization.

This seminar will be two 8 hour days with a mixture of both theory and hands on practical evolutions. We will be taking **40-50 students** this year and they will be split into groups for the practical training. We will have four to five Instructors with multiple pits, offering more hands on time for the participants.

When: September 7-8th, 8am to 5pm

Where: Wetaskiwin Fire Department

Cost: \$495 per student,

The course fees will include course material to take back to your hall, lunches, and refreshments during the day. We are limiting attendance to 50 students with no more than four per department. As always I recommend that if it is possible you send Officers or Training Personnel to make sure the skills learned can be passed on to your other members.

For more information please contact your Rocky Mountain Phoenix Sales Rep and he will be able to help you out. We are currently taking requests to fill spots and as always the first 50 students registered will be signed up for the course and we will also build a wait list should anyone not be able to make it.

If you would like to attend please fill out the attached form and email them to hotdays@rockymountainphoenix.com to book your spots.
